

Press Release

We, Eurobent sp. z o. o., hereby inform that our Company Eurobent Sp z o.o. based in Świdnica (Poland) has obtained a favourable decision at the Patent Court in Germany in a lawsuit filed by Concrete Canvas Technology Ltd based in the United Kingdom for patent infringement of Concrete Canvas Technology Ltd.

On 17th September 2019, the National Court in Düsseldorf issued a decision in which it stated that Eurobent Sp z o.o. based in Świdnica (Poland) does not infringe the patent of Concrete Canvas Technology Ltd by producing the TILTEX TM. This confirms the stance taken by Eurobent Sp. z o.o. that the TILTEX TM cementitious composite is an advanced product created by Eurobent Sp. z o.o. and thus does not infringe on the patent rights of other entities, including Concrete Canvas Technology Ltd.
