

The Integrated Management System Policy of Eurobent Sp. z o. o.

Eurobent Sp. z o. o. is a leader in the production of bentonite mats in Poland, a company which, thanks to professional service and high-quality products, quickly gained the trust of the largest customers from all over Europe.

We strive to create the image of a competent, reliable company that quickly responds to the needs of all customers.

Our slogan is: Innovation and continuous improvement for the sake of the natural environment and full satisfaction of our customers. **We want our activity in all areas of the company's operations to be as least burdensome as possible for the natural environment.**

We want to achieve this goal through the following activities:

- Maintenance and continuous improvement of the Integrated Management System according to PN EN ISO 9001 and PN EN ISO 14001
- Analysis of the market needs and the activities of the competition
- Activities aimed at reducing the negative impact of the Organization on the environment
- Rational use of raw materials, materials, fuel, energy and water
- Fulfilling legal and other organizational requirements
- Involvement of the entire staff in the process of the best implementation of customer orders and increasing their pro-ecological awareness and care for the environment in all areas of the company's operations.

Mission statement of Eurobent sp. z o. o.

We want our product, which is used as an ecological geo-synthetic barrier in the construction of modern buildings throughout Europe, to be manufactured, stored and shipped under conditions that have a minimal impact on environmental degradation; so that our customers are satisfied with the purchase of a pro-ecological product and our employees are aware of the importance and importance of caring for and protecting the environment.

Christoph Terlinden, President of the Management Board
